SKILLS

- ❖ Python
- ❖ HTML, CSS, Javascript, Bootstrap
- ❖ Java
- ❖ React, Node, ExpressJS
- ❖ MongoDB

EDUCATION

- ❖ BSc. Software Development | Tata Institute of Social Sciences (SVE)
  (Ongoing. Completed semester IV)
- ❖ Science (HSC) | St. Xaviers Junior College
  Marks: 59% | (2023)

EXPERIENCE

- ❖ **MERN developer intern | Kdigitalcurry**   *(November 2024 – Current)*

  - **Developed an internal employee management dashboard** using React, improving hiring efficiency by streamlining team management and reducing administrative overhead.

  - **Built the company website** for METAPHI Innovations using React, enhancing the organization's digital presence and user engagement.

  - **Collaborated on a dashboard system** for TOPL (Natural Veneers by TRUAKHIA), optimizing storage and performance by implementing on-demand PDF receipt generation using React and Express, eliminating the need for persistent file storage.

- ❖ **Junior SEO | Rath Infotech** *(February 2024 – June 2024)*

  Improved website search engine rankings through backlink building, keyword optimization, and business directory listings across multiple platforms.

ACADEMIC PROJECTS

- ❖ **[E -Commerce website](#)**
  This website was made as a college project. It is an e-commerce platform, showcasing a wide variety of tech products. This website contains pages such as an about us section, products section, contact form and a login/signup form.
